

Scheduled Castes Sub-Plan (SCSP)
Socio Economic Empowerment of SC Women in Agriculture
(2019-20)

Under the Scheduled Castes Sub-Plan (SCSP), the focus was on technology dissemination, capacity building of beneficiaries, input support and technology showcasing through exposure visits for the socio-economic empowerment of women in agriculture. Various interfaces and skill upgradation programmes related to agriculture and allied sectors were carried out to solve the problems faced by the farmwomen and also to equip them with the latest women friendly technologies. During the interfaces, the farmwomen were sensitized on various issues they confront in their day to day work due to their involvement in agricultural and allied activities, especially in the field of vegetable cultivation. Some of their queries and problems were taken up during the interfaces organized and were met through technological interventions.

The activities carried out during 2019-20 include, capacity building on improved methods of paddy cultivation and varietal replacement, skill upgradation programmes on improved methods of vegetable cultivation, drudgery reducing farm tools, nutri-gardens and bee keeping. With the vision of doubling the income of farm families, the farmwomen from SC families were sensitized on some of the horticultural interventions like round the year vegetable cultivation, scientific management of vegetable crops and off-season vegetable production. As part of the SCSP programmes, inputs like seeds of improved varieties, farm tools and fishing nets were also distributed to the SC women beneficiaries from the project areas and adopted villages under MGMG programme. Much required awareness was created among farmwomen on drudgery and its effect and impact, for which hampers of drudgery reducing farm tools were distributed to them.

Number of Programmes & SC women beneficiaries (SCSP)- (2019-20)

Type of Programme	No. of Programmes	No. of SC Women Beneficiaries
Skill Upgradation + Input Distribution	9	347
Input Distribution	5	294
In-house Training Programme	1	9
Total	15	650
